

Bob Johnson

bob.johnson@email.com | (555) 019-2834 | Austin, TX

Professional Summary

Embedded Systems Engineer with 5 years of experience writing firmware and low-level code for robotics and microcontrollers. Expert in C++ and real-time operating systems.

Technical Skills

C++, C, RTOS, Embedded Systems, Assembly, Microcontrollers, I2C, Hardware Debugging

Professional Experience

Senior Firmware Engineer - RoboSystems (2022 - Present)

Developed and debugged hardware drivers and RTOS scheduler kernels using C++ and assembly. Handled hardware-software integration loops and verified microsecond safety parameters.

Embedded Engineer - ChipCorp (2019 - 2022)

Wrote low-level serial communication protocols (SPI, I2C) for microcontroller sensors and optimized memory layouts.
